

14th Annual AUVSI Student UAS Competition

In partnership with

Our Seafarer Chapter of the Association for Unmanned Vehicle Systems International (AUVSI) is proud to host the annual Student Unmanned Aerial System (SUAS) Competition from **June 15 to 19, 2016**. This event is held at the United States Navy's Webster Field, site of the Unmanned Aerial System (UAS) Test & Evaluation Directorate, supporting a UAS center of excellence for development and test nestled in the heart of scenic Chesapeake Bay area in historic St. Mary's County, Maryland.

Competition Aim: Stimulate and foster interest in unmanned systems, technologies and careers.

Competition Focus: Challenge undergraduate students with an event requiring the design, fabrication and demonstration of an autonomous UAS capable of completing a wide range of specific tasks. Student teams are judged on their design and flight performance. In 2015, over \$50,000 in prize money was awarded to 46 teams; 25 U.S. colleges, 16 international colleges (6 countries), and 5 high schools. Student recruitment opportunities of future engineers, scientists and leaders are planned for sponsors prior to competition start, and a post event awards banquet is always a highlight to interact with students and peers.

Universities & Student Groups :

Indicate your interest in the 2016 competition now by contacting the AUVSI Seafarer Chapter and SUAS Competition organizers.
